## Godrej Consumer Products (GCPL)

*Broad-based growth, margins seen improving; BUY*

Rating: **BUY**

Target Price (12-mth): Rs.1,490

Share Price: Rs.1,240

GCPL delivered a steady yet healthy performance in Q3FY26 on the back of 9% growth in domestic volume and improvement in both consolidated /domestic EBITDA margin to 21.5%/24.8%. Growth was driven more by company-specific execution than a sharp macro recovery. While Home Care and emerging adjacencies i.e., Air Care, Laundry Liquids and EDP perfumes led the momentum, Personal Care showed the signs of recovery post-GST cuts. Reiterating its focus on volume-led growth, the management guided for 6-7% volume growth in the near-term with a gradual move towards high single-digit growth over the next 18-24 months and maintained a steady-state India margin band of 24-26%. Thus, rolling over valuation to FY28e, we retain BUY rating on the stock with a revised TP of Rs1,490 (from Rs1,430 earlier), valuing it at 50x FY28e EPS.

**Healthy Consolidated Revenue on Strong Volume:** Consolidated revenue grew 9% y/y, led by 7% overall volume growth. Domestic revenue grew 11% (volume up 9%), led by 12% rise in Home Care (led by Air Fresheners, Fabric Care and Household Insecticides) and 7% rise in Personal Care (aided by soaps stabilising post-GST cuts and improved affordability). Indonesia revenue fell 3% (volume up 5%); GUAM posted 8% CC growth. We expect revenue to clock ~10% CAGR over FY25-28e, led by 10/9% revenue CAGR domestically/internationally.

**Lower Overhead Spends and Brand Spend Aided Operating Margin:** Despite 130bps decline in gross margin, consolidated EBITDA margin expanded 140bps y/y to 21.5%, aided by 150/135bps decline in other expenses/brand spend, partly offset by 15bps rise in employee cost. The management believes margin improvement is now structural and sustainable, though faster growth in lower-margin categories (e.g., incense sticks, liquid detergents) could limit a sharp upside. It reiterated 24-26% as the steady-state range for India EBITDA margin. We expect overall EBITDA margin to rise 140bps to 22.4% over FY25-28e, aided by improving margin in soap and international business.

**Outlook and Valuation:** At the CMP, the stock trades at 59/48/42x FY26/27/28e EPS of Rs20.9/25.8/29.8. We maintain BUY rating on the stock with a revised 12-mth TP of Rs1,490 (from Rs1,430 earlier), valuing it at 50x FY28e EPS. **Key Risks:** (a) Failure of new launches; (b) higher input cost; (c) price-based competition in key products; and (d) geopolitical turbulence shrinking overseas business.

## Analyst Call – Key Highlights

### Demand Trends

- Overall demand trends in India remain steady with underlying volume growth of 9% (~7% adjusted for GST cut led pipeline filling in Q3FY26), despite sequential volatility due to weather impacts, GST transitions and seasonality.
- Consumption recovery is steady instead of broad-based, aided by company-specific execution and portfolio actions.
- Soaps were impacted by a cold winter and GST transition with improvement visible towards the end of the quarter.
- The management expects volume growth to sustain at ~6-7% in the near-term with a gradual upward trajectory towards high single-digit over the next 18-24 months.

### Category & Brand Performance

- Home Care delivered strong growth, led by air fresheners, fabric care, and Household Insecticides (HI). Air Care and Laundry Liquids continue to drive structural growth with long runways, while HI posted share gain across products.
- Personal Care grew by 7%, aided by soaps stabilising post-GST cuts. Soaps returned to positive volume growth; long-term soap value growth is pegged at 4-6%. Faster-growing adjacencies i.e., body wash, hand wash, face wash, and men's grooming are likely to compound.
- Mustache acquisition (men's face wash brand) completed successfully and is fully operational. The brand is positioned to scale via wider distribution. EDP are emerging as a fast-growing category, with consumer shifting away from deodorants.
- Pet food pilot in TN showed mixed early results. The management remains committed given the long-term opportunity.

### International Business Performance

- **Indonesia:** Underlying volume growth of ~5%, driven by shampoo, hair colour, and baby care. Revenue growth appeared muted due to distribution model changes and pricing pressures, but margins improved ~100 bps YoY. Competitive intensity has moderated; recovery expected to become more meaningful from FY27.
- **US, Africa & Middle East (GUAM):** Delivered strong performance with ~19/18% INR revenue growth/EBITDA growth, aided by Air Care and Air Fresheners. Air Pocket performed well. Margin expansion continues albeit at calibrated pace. Overall international portfolio saw resilience despite mixed operating condition.

### Margin

- Consolidated EBITDA margin expanded to 21.5%, while India standalone margin stood at a healthy 24.8%.
- Margin recovery was aided by: (a) benign input cost; (b) cost discipline; (c) supply chain efficiency; (d) media cost savings; (e) technology-led buying; and (f) blend flexibility in soaps/detergents.

- Margin improvement is sustainable, though mix shifts may cap upside. The management reiterated 24-26% India margin range as a steady-state expectation.

### **Outlook & Guidance**

- FY26 outlook remains positive with high single-digit consolidated revenue growth, sustained profitability momentum.
- India business expected to continue delivering steady volume growth and maintain margin within the guided range.
- GUAM likely to deliver double-digit revenue and profit growth for the year.
- While Indonesia and LatAm face short-term macro and pricing pressure, the management remains confident of: (a) robust exit trajectory; and (b) continued margin resilience in FY27.
- Long-term strategy remains focused on: (a) category development; (b) innovation-led growth; (c) cost discipline; and (d) operating excellence.

## Valuation

The company's focus on developing categories/businesses and innovation drove launches with huge potential: (a) liquid detergent (Fab); (b) RNF molecule-based anti-mosquito repellents; and (c) foray into pet care. Retaining its focus on volume-led growth, the management has guided for 5-7% volume growth in FY26 with double-digit EBITDA growth. However, we have marginally tweaked our earnings estimate to align with Q3 results.

We remain optimistic about GCPL's long-term prospects, given its: (a) rural distribution initiatives; (b) innovation-led growth; (c) efforts to simplify its international business; and (d) a better mix driving expanded margin. At the CMP, the stock trades at 59/48/42x FY26/27/28e EPS of Rs20.9/25.8/39.8. **We maintain BUY rating on the stock with a revised 12-mth TP of Rs1,490 (from Rs1,430 earlier), valuing it at 50x FY28e EPS.**
