Elevated operating expenses lead to an EBITDA miss...

...while the negative other income affects PAT

- UTI AMC's revenue from operations came in at INR 3.7b (in line), reflecting a growth of 4% YoY, but it declined 5% QoQ. Yield on management fees was 38.6bp in 4QFY26 vs. 42.4bp in 4QFY25 and 40.1bp in 3QFY26. For FY26, it came in at INR15.4b, up 7% YoY.
- Total opex came in at INR2.3b, registering a growth of 10% YoY/6% QoQ. As a bp of QAAUM, opex stood at 23.4bp in 4QFY26 (vs. 24.3bp in 4QFY25). EBITDA was INR1.5b in 4QFY26 (11% miss due to higher other expenses). EBITDA margin came in at 39.3% vs. 42.6% in 4QFY25 and 45.6% in 3QFY26.
- PAT stood at negative INR514m in 4QFY26 vs. our est. of INR1.2b. For FY26, PAT came in at INR5.8b, up 61% YoY.
- Regarding the TER regulations effective Apr'26, management indicated to fully pass on the impact to distributors, resulting in no material impact on the company's P&L. However, the company anticipates a 1-2bp compression in yields, primarily due to an increasing mix of passive products and a tilt toward lower-duration debt funds.
- Despite an AUM decline driven by current trends, the impact on revenue is partially offset by lower employee costs, resulting in an increase in core EPS for FY27 and broadly stable earnings for FY28. **We reiterate our BUY rating with a one-year TP of INR1,270, based on 24x FY28E core EPS.**

Key takeaways from the management commentary

- Equity net flows have been improving toward breakeven after earlier negative trends. SIP growth and multi-product distribution are key levers to improve net equity inflows.
- Digital initiatives led to a 2.3% revenue increase, 33% rise in transactions, and 31% reduction in cost per transaction.
- On the international business front, the company's performance was hit by global outflows. The strategy remains to diversify into alternatives and wait for a cyclical recovery in the global sentiment.

Valuation and view

- The core AMC operations of UTI AMC have experienced consistent growth in AUM, supported by a diversified product mix, with a strong tilt toward equity, healthy SIP inflows, and robust retail traction.
- Going forward, improving the performance of equity schemes will be key for a rise in contributions from equity schemes, resulting in yield improvement. Despite an AUM decline driven by current trends, the impact on revenue is partially offset by lower employee costs, resulting in an increase in core EPS for FY27 and broadly stable earnings for FY28. **We reiterate our BUY rating with a one-year TP of INR1,270, based on 24x FY28E core EPS.**

Key takeaways from the management commentary

Business

- The company's strategy to capture a larger share in the MF growth includes depending on retail participation, particularly through SIPs, expanding its distribution footprint beyond metro markets into B-30 cities and emerging geographies, strengthening its equity product suite across styles and categories, and continuing investments in technology and process improvements.
- Fixed income: ~50% of AUM ranked in the top two quartiles (1-year) and ~60% (3-year).
- Market share in total gross sales stood at 5.5% for Q4 and 6.1% for FY26.
- The company added 0.7m new investors (PAN-based), taking total folios to 13.8m.
- Digital initiatives led to a 2.3% revenue increase, 33% rise in transactions, and 31% reduction in cost per transaction.
- AI-powered contact center "Vaani" automated 59% of inbound calls, improving efficiency.
- The company launched WhatsApp-based transaction and payment capability via CAMS Pay, becoming the first AMC in India to do so.

- Total employee count reduced to 1,248 (Mar'26) from 1,402 (Mar'24), reflecting efficiency gains and workforce restructuring.

Yields

- Yield: Equity/ETF & Index/Cash & Arbitrage/Debt at ~75bp/~8bp/~10bp/~18-19b. On blended basis: ~32bp.
- Yield dynamics remain mix-driven, with passive growth exerting mild downward pressure.
- With regard to the regulation effective Apr'26 of 5bp TER removal, the company indicated to pass on the impact to the distributions with no impact on the P&L.
- Expected yield compression of 1–2bp due to mix shift toward passive and lower-duration debt.

SIP flows

- Gross SIP registrations crossed 1.5m, with 76% sourced digitally.
- SIP inflows rose to INR94.4b (+13.4% YoY), with active SIP folios at 2.9m (+9.7%).
- Equity net flows have been improving toward breakeven after earlier negative trends. SIP growth and multi-product distribution are key levers to improve net equity inflows.
- The strategy is to diversify flows across multiple funds rather than rely on flagship schemes to maintain a sustained flow trend.

Non-Mutual Fund Businesses

- In the international business, the performance was impacted by global outflows. The strategy remains to diversify into alternatives and wait for a cyclical recovery in the global sentiment.
- Passive business scaled significantly, with ETF AUM at INR189.6b and index funds at INR59.3b (total ~INR249b), maintaining leadership in smart beta.
- A strong pipeline of passive launches is expected to support future growth.
- Pension AUM grew 11.8% YoY, with private sector pension AUM growing 46% YoY, reinforcing this as a key strategic growth area.

Product & Distribution

- The company expanded geographically while maintaining net zero incremental costs through efficiency improvements.
- On the distribution front, the company has increased engagement with fintech partners and is witnessing strong traction from these channels, complementing its traditional distribution network. This dual approach of leveraging both institutional (banks) and digital (fintech) channels is expected to sustain and enhance distribution reach in a competitive environment.
- Supervisor-to-sales ratio improved to ~1:5 from ~1.3, enhancing productivity.
- Upcoming passive launches include Nifty 500, sector leaders, new-age consumption, and internet funds (both ETF and index formats). Active strategy remains focused on core diversified categories.
- Plans to launch at least one product in the new SIF category, and plans expansions into GIFT City with a retail license to enable global and outbound investment opportunities.

Financial Performance

- Employee cost included ~INR1.3b one-offs (VRS + pension) and INR40m labor code impact.
- For FY27, the employee cost run-rate is expected to be at: INR900m–950m/quarter, standalone at INR1.25-1.3b on a consolidated basis.
- Other expenses grew ~15% due to digital (INR80m spent in building iCloud infrastructure) and branch expansion investments (~90 added in the last 1.5 years); expected to grow ~7–8% standalone and ~10% consolidated going forward.
- The company currently holds a significant cash and investment balance of ~INR40b–45b at the consolidated level, with no plans for buybacks or any major capital restructuring in the near term.
- Others
- UTI AMC was selected again as a portfolio manager for EPFO for the third consecutive term.
- It was also retained as one of two portfolio managers for Coal Mines Provident Fund Organisation (CMPFO) for a second consecutive term.
